I am currently recruiting on behalf a Tier 1 Social Housing Contractor, looking Project Manager to be based in London who will be responsible for the effective running and delivery of varied Decent Homes programmes for multiple Partnering contracts.

Client Details

My Client is a Tier 1 leading construction, and property services contractor who specialize in affordable housing. They employ over 20,000 people globally, and have an annual revenue of over £3bn. They offer the opportunity to grow and develop your career with a progressive organization, a highly competitive salary and an excellent benefits package

Description

The successful Project Manager will be responsible for the effective running of varied Decent Homes programmes for multiple Partnering contracts within Property and Housing. The contract will consist of a Kitchen and bathroom replacements and externals, roofing windows etc. The Project Manager will have financial responsibility of £10million to £15 million of a design and build estate regeneration contract including internal and external refurbishment of both tower blocks and street properties. The Project Managers responsibilities will include overseeing Site Managers and Resident Liaison Officers, writing contract programmes, client and consultant liaison and holding partnering meetings.

Profile

The ideal Project Manager will be based in London and will be confident managing their personal workload alongside their direct reports. The candidate will be fully conversant and efficient in Building Regulations, Health and Safety, decent homes programmes, knowledge and understanding of construction contracts and Processes. Someone from a construction background outside of Social Housing would be suitable for the position.
