### Evaluation of the thesis:

Please enter your evaluation of the submitted work here. The report will focus on:

Diploma thesis deals with interesting topic connecting the student's knowledge in the field of IRS and the system of IRS in Enugu State.

The theoretical part of diploma thesis deals with theoretical description of the integrated rescue system in the Czech Republic. I also lack a justification, why the student focused only on the Czech Republic system. It would be logical to do analysis of IRS system in the world and focus on evaluating and setting up the system of IRS in Enugu State.

The practical part is focused on the deeper issues of the IRS in Enugu State. I miss here the selection analysis of Type Activity File (TAF - STČ) for application to Enugu State. Why this TAF was chosen. The student used basic scientific methods without deeper analyses. I appreciate the practical part of thesis, where the student analysed preparedness of the Enugu State for the chosen TAF. By the basic scientific method pointed of system negative in the Enugu state.

The diploma thesis corresponds to the requirements for this type of work. The thesis contains both a theoretical part and a practical part oriented to a specific problem that the student focused on. In the diploma thesis there are number of formal errors, which unnecessarily belittle the work. There are pictures in bad quality, bad lines spacing in some pages.
