OPPONENT´S EVALUATION OF THE BACHELOR´S THESIS

Student: **Sara Arghwan Jameel**   **Opponent:** **Ing. Adam Ulrich**

Study program: **Software Engineering**
Study course/Specialization:
Academic year: **2022/2023**

Bachelor's Thesis topic: **Comparison of Modern JavaScript Web Frameworks**

Evaluation of the thesis:
The proposed work is conceptually well written, the theoretical part maintains its flow and covers all the important knowledge the reader has to gain to be able to understand the topic. The practical part is focused on a benchmark comparison of famous frameworks. The experiments are well designed, I found no statistical faults whatsoever. The only think I am lacking are deeper conclusions, that result from the experiments. I propose the evaluation mark B.

Questions: Which of the proposed frameworks would you personally choose for your project and why?

Overall evaluation of the thesis:
The Opponent shall grant a mark according to the ECTS classification scale:
A – Excellent, B – Very Good, C – Good, D – Satisfactory, E – Sufficient, F – Insufficient
An "F" grade also means "I do not recommend the thesis for defence."

I recommend this thesis to be defended and suggest the following evaluation:
B - Very Good
In the case of an evaluation grade of "F – Insufficient", please supply the main shortages and reasons for this assessment.

Date: 1. 6. 2023   Thesis Opponent's Signature:
